5th PhD Student Research Day (PSRD)

22 June 2026, IAE Lille
HYBRID

Keynote Speaker

Prof. Sushanta Mallick (Queen Mary University of London, the UK)

Organizing Committee

Jean-Gabriel Cousin (IAE Lille University School of Management, France)
Sébastien Dereeper (IAE Aix Marseille Graduate School of Management, France)
Fredj Jawadi (IAE Lille University School of Management, France)

We are pleased to announce the **5th PhD Student Research Day (PSRD) in Finance**, which will take place on **June 22, 2026**, at the **IAE Lille University School of Management**. This event aims to provide PhD students with the opportunity to present the progress of their doctoral research in a supportive and constructive environment. In particular, **1st-year PhD students** are encouraged to present their research projects—such as their dissertation proposals—and to engage in discussions with senior researchers. **2nd- and 3rd-year PhD students** are invited to present their research papers and preliminary findings. This PhD student workshop offers a valuable opportunity to receive insightful feedback and enhance ongoing research. To ensure productive exchanges, **each presentation will be assigned a senior discussant**, who will provide detailed comments and suggestions aimed at helping students improve their work.

The **5th PSRD** will include:

1. A Keynote Lecture by **Prof. Sushanta Mallick** (Queen Mary University of London, the UK

2. PhD Student Workshop featuring presentations by participating PhD students

The **5th PSRD** will prioritize research proposals in **Finance & Corporate Finance**, **Financial Economics**, **Banking**, and **Financial Econometrics**. We especially welcome proposals that cover topics such as:

Finance: Asset Pricing, Behavioral Finance, Emotional Finance, Corporate Finance, Firm Valuation, Governance, Investment Decisions and Resource's Allocation, Information and market efficiency, Funding Issues, Financial Accounting, Banking, Financial Intermediation, Financial Regulation, Cryptocurrencies, Alternative Finance, Fintech, Green Finance, Energy Finance, Market Microstructure, Sustainable Development, Financial Risks, Geopolitical Risks and Financial Economics, etc.

Quantitative Methods: Applied Econometrics, Financial Econometrics, Causal Inference Time Series, Volatility Modelling, Computational Finance, Big Data and Machine Learning
