

CALL FOR PAPERS

The sustainable Finance research Forum Paris 2022

Entretiens de la Finance Durable Paris 2022

Paris, December 16, 2022

Sustainable finance has tremendously transformed ways financial issues are addressed and treated in practice by financial professionals. The conference Sustainable Finance research Forum Paris 2022 "Entretiens de la Finance Durable", co-organised by the French Finance Association, ESKA Publishing, the Journal "Bankers Markets Investors" and IPAG Business School seeks papers of applied research covering both questions and possible answers to all relevant issues from a corporate, intermediary and investor point of view. Research must be presented in a scientific rigorous manner and in a way professional experts may read the message.

We welcome notably short papers less than 12 pages with illustrative material that could built on a more theoretical paper. The scientific committee will thus select papers relevant to sustainable finance with the two following criteria, first scientific soundness, and innovation, second understandability to professional experts and practical implications. Topics may include notably:

<ul style="list-style-type: none">• Corporate responsibility• Corporate governance• Corporate culture and values• Social matters and education in firms• Green banking• Green and Social Bonds• Impact banking and financial products	<ul style="list-style-type: none">• Climate finance• Greenwashing• Ratings• Taxonomy• Responsible investments• Long term performance and risks• Financial education and literacy
